I'm an enthusiastic developer with a degree in Computer Systems Engineering at the Autonomous University of Aguascalientes. Throughout my academic journey, I've undertaken school projects involving various programming languages and web technologies.

EXPERIENCE

- Strengthened programming skills and problem-solving abilities through focus on academic projects.
- Demonstrated strong capacity for teamwork and communication within collaborative environments.
- Applied software programming skills during social service for inventory updates, equipment cloning, assembly, and preparation of network cables.
- Developed a web-based e-commerce application during professional practice.

EDUCATION

- 2019 - 2023
